What is a Target Market Determination?

A Target Market Determination (TMD) is a determination that GIO has made to:

- describe the classes of customers for whom this Product has been designed;
- specify distribution conditions;
- specify TMD review periods and triggers; and
- set out reporting requirements.

This TMD assists GIO staff, our distributors and customers in understanding the target market for this Product. In this TMD, distribution includes the following conduct in relation to retail customers:

- dealing in the Product (e.g. issuing or arranging for insurance to be issued to a customer);
- giving a PDS or other regulated disclosure document; and
- providing general financial product advice in relation to the Product.

This TMD is not the PDS and is not a summary of the features or terms of the Product. For full details of the cover available in this Product, including the terms, conditions and exclusions that apply read the PDS which can be found at www.gio.com.au.

What is the target market for this Product

The target market for the Product is those customers for whom it is likely to be suitable for, taking into account:

- the key attributes;
- the likely objectives, financial situation and needs of customers who will acquire the Product; and
- key eligibility and suitability criteria.

GIO products are also targeted at customers who have an insured address that is located within an acceptable State or Territory (NSW, ACT, VIC, WA and NT).

What are the key attributes of this Product?

A customer can choose to tailor cover under their policy to meet their own financial situation, objectives and needs. The choices that the customer can make will impact the kind and scope of cover, policy limits, excess amount, policy premium amount and structure.
